Alf Hoivik Injured In Gas Explosion

Alf Hoivik of Carbon received severe burns on his hands and minor burns to his face Saturday afternoon about 2:45 p.m. when an explosion occurred in the pump house at the rear of his home. Dr. G.L. McFarlane was called and after treatment Mr. Hoivik was taken to the Drumheller hospital where his condition is reported as good. Mr. Hoivik had been pumping water from the drilled well into a cistern for about three hours during the afternoon. He then shut off the pump switch on the wall of his home and on opening the door of the pump house was met by a sheet of flame. An accumulation of natural gas from the well in the pump house is believed to have ignited in some manner and the resulting explosion took place just as Mr. Hoivik opened the door. The east wall of the pump house was bulged outward by the force of the explosion and the roof was lifted slightly, causing a crack about an inch wide under the eave. Paint on the door side of the building was scorched and the window glass cracked.

Due to the bulge of the earth at the equator, the Mississippi river flows downhill.

It takes from two to three years for icebergs to come down from Greenland to waters off the shore of Newfoundland.

BILL BUGAWITCH BRUISED IN FALL DOWN STEPS

Bill (Malton) Bugawitch suffering minor injuries Saturday evening when he slipped and fell down the stairs leading to the furnace room in the Carbon Hotel. The accident occurred shortly after 10 p.m. and Bill was later discovered unconscious by John Czech, hotel manager, as he went down stairs to stoke up the furnace. Dr. G.L. McFarlane attended the patient and he was then taken to the Drumheller hospital, where he remained unconscious for several hours. X-rays were taken and revealed that the only injuries sustained were bruises and superficial lacerations.

WILLIAM R. VAN LOON DIES IN DRUMHELLER HOSPITAL

William R. Van Loon, pioneer farmer of the Carbon district, died Wednesday, October 19, in Drumheller hospital. Born in Chesapeake, Ontario, 50 years ago, he came to Carbon in 1900 and had resided here ever since.

He is survived by his wife, Jessie at Carbon, and a sister, Mrs. Colin Fields at Nanook, Ont.

Funeral services with full Masonic rites were conducted from Christ Church, Carbon, by Rev. J.W. Way on Friday afternoon. Pallbearers were S.J. Garrett, L. Poxon, S.J. Torrance, W.F. Ross, Sidney N. Wright and V.H. Hawkins. Interment was made in Carbon cemetery.

Carbon Legion Plans Memorial Service

The regular October meeting of the Carbon branch of the Canadian Legion was held in the Legion Hall Friday evening, October 21, with about 20 members in attendance. Main topics of discussion were the Memorial Service scheduled for November 11, and the Poppy Day program.

Date for the selling of poppies was set at Saturday, November 5, and it was decided to again enlist the aid of the Carbon Students' Union to sell poppies that day. Morris Switzer was appointed to contact the Students' Union in this regard. The business places in the village have already been canvassed for wreaths and their orders taken.

A suggestion by Padre J.W. Way that the service be held in the Scout Hall and that ministers of other churches be asked to take part was agreed to, and Padre Way was asked to contact the ministers and make the necessary arrangements. Further details as to time and other particulars of the service, will appear in next week's issue of The Chronicle.

Comrade C. Cave, secretary-treasurer of the Carbon branch, reported that he was leaving to spend the winter months in B.C. and requested that an appointment be made with his absence. Comrade J.A. Barr offered his services until election of new officers, which will take place in the next meeting.

Nominations for officers will be held at the next meeting, and if a sufficient number of members are present elections will also take place. Legion members and all other returned men are asked to turn out in full force for this important meeting. If insufficient members are present the election of officers will be held at the December meeting.

A letter from Zone Headquarters stated that the district meeting will be held at Trochu on Wednesday, October 26, to elect a Zone Commander. The Carbon branch is entitled to two votes in this election and an effort will be made to have a fair representation from Carbon at the meeting.

Hermanson Baby Fund Financial Statement Issued

Bert Charlebois, president of the Carbon Lions Club, has been advised by the Calgary director that the first operation on Baby Hermanson to correct a hair lip and cleft palate was a complete success. We wish to express our appreciation and thanks to all those who so willingly contributed towards the fund. A statement of the account appears below.

While we show a surplus of \$146.84 we are still short of our objective by from \$300 to \$400. As a second, and we hope the final operation, is to be made in the summer of 1950 which we understand will cost as much as the first, a further campaign for funds will be made.

Our special thanks go to the members of the Duke of York Chapter of the I.O.D.E. who contributed the sum of \$141.00, being made up of \$50 given from funds on hand and \$91 raised from a dance sponsored by the I.O.D.E. in aid of the fund.

Contributions to this cause are still being accepted and any member of the Lions Club will be pleased to accept donations from those who wish to give.

The final list of donors appears in this issue of The Chronicle. Official receipts will go forward from the Lions Club in the near future.

Financial Statement For Baby Hermanson Fund

Total collections	\$772.82
EXPENSES	
Doctor's fees	\$360.00
Nurses' fees	245.03
Holy Cross hospital	95.00
Travel expenses	18.70
Printing	7.25
Total expenditures	\$625.98
Balance on hand	\$146.84
Total	\$772.82

Several other items of expense were borne by the Lions Club and by individual Lions Club members.

POPE LEASE W.L. MEETING

Eleven members and four visitors enjoyed the meeting held at the home of Mrs. J. Peterson and answered the call by telling of an embarrassing moment. It was decided that the local club join the consumers association as a W.L. rather than as individuals and Mrs. R. Ridgwell and Mrs. S. Stewart were appointed to take charge. A letter was sent to Mrs. McKinnon, who is in hospital.

The tie prize was won by Mrs. R. Bacon. W.L. spoons are to be presented to all members leaving the district. Mrs. A. Buckley read a paper on "My First Look at Dawson Creek" written by her niece.

Hermanson Baby Fund

Final list of donations to the Hermanson Baby Fund follows:
\$10 donations: Harry Burgen and Don DeWitt, Vulcan; Teddy Ohi, Lethbridge.

\$5 donations: Nick Purl, Ted Sherring, C. R. Nash, Jack Adams, Andy Mortimer, Len Poxon, Dave Tetz, John Leiske, Theo Tetz, Ohihauser, Gideon Schell, Leo, H. Ohihauser, W.B. Elliott, Reuben Ohihauser, Bill Ohihauser, Jack Gimbel, E. Fox, Mrs. Stanley Gibson.

\$2 donations: Alec Goodman, E. Greiner.

\$1 donations: Herman Coates, B. Treker, George Susan, Thomas Anderson, Art Anderson, Basil O'Rourke, E.V. Rogers, S.N. Wright, Fred McCracken, Don Gordon, Fred Gordon, Jim Gibson, E. Treker, Earl Morgan, Jim Morgan, Mrs. Parmenter, Garnet Gibson, J. Viena, Stanley Gouldie, Mrs. P.N. Smith, Calgary Axel Castello, Bob Little, J. Kuupman, Willard Vanover, Mrs. E. Lea, CPAC, Calgary, Roy Bent, R.P. Fuller, C.B. Guy, Art Papp, Drumheller, Anonymous, Calgary, Fred Liddle, Paul Goldammer, Nick Shylka, Anonymous, Ken Urie, Calgary, Paul Balaz, Tom Dickson, Tom Skelly, C.F. Ward, J. C. Gordon, A. Varrath, A. Thurn, A.A. Tetz, J.A. Gimbel, Reinhold Heuwer, Fred R. Metzger, Ben Hauder, Art Biebrick, Mr. and Mrs. Joe Stern, Mr. and Mrs. H. Stern, Leo G. Biebrick, Ray Zachariasen, Mrs. H. Hunt, W. Douglas, Mrs. E. H. Van Wart, E.H. Van Wart Jr., A. Jacobs, M. Ryan, J. Hoff, Cliff Poole, B. Hammell, John Metzger, Harold Bramley, Otto Martin, John Harsh, M.A. Maund, A.W. Maund, Jack Barber, Mrs. R. Barber, Bruce Gihert, Lillian Dickson, Mrs. C. Verman, Ben Zeigler, Richard Kary, Chris Zeigler, Jake Reiser, John Schmutz, Earl Frazer, Russel Frazer, S.J. Garrett, Jack Talbot, Dore Poyle, R. DeFout, Buster Simpson, Royal Hay, Harry Poon, Merle Anderson, John Martin, Louis Goldammer, S.J. Sander, Albert Hamner, C. Hedstrom, Fred Liddle, Mr. McKellar, Mrs. Skilpin, J. Brost, Leslie Brost, Melvin Brost, C. Stewart, J. McKinnon, Louis Balough, Gus Gieck.

G. Gallinger \$2.25, Art Forsch \$1.25, Mr. and Mrs. Berdahl \$1.55.

Carbon Curlers Elect Officers

The annual reorganization meeting of the Carbon Curling Club was held in the Village office on Wednesday evening, October 19, and Sid Carrings was again elected president for the 1949-50 season. Archie McLeod was named vice-president and Bill Rose secretary-treasurer.

Fees will remain the same, with village curlers paying \$8, farmer members \$6 and school students \$3.50.

Committees elected are as follows:

Draw Committee—Chris Thumbert and Ted Schmidt.
Executive Committee—Jack Barr, Duxy Poxon, Chris Thumbert, Jack Barber and Findlay Code.
Ice Committee—Ray Campbell, Sam Garrett and Ed Foster.
Hiring of a caretaker was left in the hands of the executive committee. It was also decided at the meeting to put fresh shavings on the two rinks before ice-making commenced.

Robert Bertsch \$1.75, Mrs. T. Little \$1.00, Chris Metzger \$25, John Poxon \$25.

Fifty cent donations: Alice Soby, F.R. Gibson, Alvina Kranzler, George Wurte, Maynard Moe, E. McIntosh, Clarence Guyon, Mrs. N. White, Archie Metzger.
Donation \$15.43, Correction in I.O.D.E. dance receipts \$91.

BULL MOOSE SHOT IN R.C. RAILWAY STATION

NEW HAZELTON, B.C.—A bull moose with eight point antlers was shot and killed while getting water in the railway station at New Hazelton B.C.

William Holmes, a silver miner, was starting out on a hunting trip when he spotted the moose near a water tank in the station and shot it.

JAMES HAY PASSES IN CALGARY HOSPITAL

James Wright Hay, 60, of Carbon, died Sunday morning, October 23, in the General hospital, Calgary. Mr. Hay was well-known in the Carbon district, where he had farmed since 1907, coming from Minden, Ont., where he was born. He is survived by his wife, Louisa; two daughters, Katherine, Carbon; Mrs. Gordon Ward (Dorothy), Grouse; two sons, Harley and Lindsay, both of Carbon; three grandchildren; two sisters, Mrs. R. H. Armstrong, Shelbourne, Ont.; Mrs. John Briggs, Carbon; three brothers, John, Sander; Walter and Wilbert, Carbon.

Funeral services were held Tuesday at 2 p.m. from Carbon United Church, with Rev. C.A. Warren officiating. Pallbearers were Sidney N. Wright, Charles Martin, Jim Snell, Dave Kaiser, Goldsby McCracken and Findlay Code. Interment followed in Carbon cemetery.

A light year is equivalent to 3,700,000,000,000 miles.

"Canned Grass" New Method For Storage Of Forage Crops Preserves More Nutrients

TORONTO. — Machine methods of harvesting hay and other forage crops to bring June feeding in January will be shown Canadian farmers at the Royal Agricultural Winter Fair in November. "Canned Grass," as the method is known, provides for storage of forage crops from the time they are cut until the farmer looks them out of the silo in winter.

Harvesting hay at the peak stage of growth produces more succulent feed, it is claimed, and provides a greater percentage of protein, carotene and other valuable nutrients. Using a new forage clipper, the farmer is one step across a field may cut, chop and load green hay in one operation. Mowing, raking, stacking and hand pitching are eliminated.

The new machine is provided with a moving knife and also a pick-up attachment so that a farmer may cut his hay in the field with the machine and process it all in the one operation, or he can cut it with the mower and pick it up with the pick-up attachment. The same machine is also equipped with a corn cutting attachment.

Extensive tests carried out in Canada and the United States have shown that when a farmer climbs into his hayrack in the winter time and lifts a forkful of alfalfa, he is holding from 20 to 30 per cent less food value than the same forage contained when it was mown the previous summer. Feeding grasses and legumes as hay is believed one of the most appealing means in the field.

The cure, agricultural experts claim, is simple: The farmer may cut his hay while it is still knee-high grass, rich in protein and carotene, chop it fine while it is still moist, store it in a silo or pit. Preserved in its own juices, the canned grass is finally fed with its full complement of vitamins and proteins. Any cutting of grass can be made into good silage providing it is green and wet. It is claimed.

Recommended to farmers are the following rules:

1. The best results use a 60-40 mix of grasses and legumes, timothy and red clover; alfalfa and brome; soybeans and lucerne or even weeds and timothy. Mow the grasses right after the heads have emerged, alfalfa in early bloom; clover half to full bloom; cereals, pre-bloom to early bloom.

2. Windrow and let the sun wilt out to a moisture content of 62 to 68 per cent.

3. When a big harrow is shunted down to the mowers because he can't lift it must feel the pitch which caused his demolition and on the side.

Grandpappy Jenkins says we must be a truly peace-loving people at heart. They're picking up a single hair and a M. America and not a single hair-pulling to mat the events.

Perk up—the beauty contests may be over but just around the corner are all those lovely footies and drum majorettes.

The owner of Blarney castle refuses to sit it—and that's no blarney, either.

Authorities say the Adams apple is the most sensitive spot in the human body.

ATOMIC ENERGY
One pound of properly utilized atomic fuel could produce the same amount of energy as 1,500 tons of coal or 200,000 gallons of oil, scientists report. Under contract from the Atomic Energy Commission, engineers have begun a joint project to build the first atomic power plant for driving a U.S. navy ship.

On The Side - By E. V. Durling

HUSBAND
"What kind of husbands do milkmen make?" that was a query put to this department. A feminine subscriber commenting on same said it was "a silly question." That "a man's occupation has no connection with the kind of husband he will make." I disagree with the contention the query is a "silly one." All experts on life among the married are agreed a man's occupation has a definite bearing on what kind of husband he will make. For example, it has been claimed a travelling salesman is often a poor matrimonial risk. He is away from home too much and, lacking the controlling hand of his wife, is likely to succumb to some of the wide variety of temptations by which a man travelling alone is confronted. Men whose work brings them into contact with a number of females of the predatory type are only good matrimonial risks if they are made in love with their wives and possessed of strong character. A man who has a nerve-racking job is likely to be a husband difficult to handle because he arrives home on edge and may fly off the handle for practically no reason at all. Men who have exciting and highly interesting work during the day are inclined to want to stay home and take it easy at night. This is true on a wife who has been home all day and wants to go out for a little excitement in the evening.

STEADY VEHICLE
A Scot named George Renne has invented a vehicle called a "rail plane." This vehicle runs on an overhead rail similar to the one used in the U.S. It is driven by propellers and can achieve a speed of 300 miles an hour. It will be exhibited in England shortly on a one-mile test route. A "rail plane" could make the trip from New York City to Chicago in less than five hours. Consider also what new transportation would mean to commuters. Trips now taking an hour could be made in 15 minutes. However, a lot of commuters wouldn't like that. It wouldn't give them enough time for a game of cards on the train.

OLD TIMER
George Hachenkmidt, the great graspler of the yesterday, doesn't like what is happening to wrestling. He seems to particularly resent writers such as that character known as "Gorgeous George." Hachenkmidt, though now 72 years of age, thinks he could throw "Gorgeous George" in under 15 minutes. What's more, he says he would like to try it. The old boy is strong. The chance for some smart promotion? A Hachenkmidt vs. "Gorgeous George" match would inspire many young old timers to pay top prices. I haven't been to a wrestling match in years, but I certainly would like to see old "Hacker" lose "Gorgeous George" out of the ring. I think he could do it, too.

BALD
Bald-headed men with a high degree of hope in their hearts are reported fighting in great numbers to the hamlet of Een, Holland. Many bald-headed women are also reported to be making the trip. Een resides a barber named Marinus van Rooyen who has originated what is said to be a seasonally successful hair-growing recipe. Van Rooyen's first patient, who began taking treatment about a year ago, is reported to have had three haircuts in the last two months. Van Rooyen charges the equivalent of \$150 for a treatment. If no hair grows on the bald head, the client within a year he gets his money back. The town of Een is prospering because of Van Rooyen's many visiting clients. The town is expected to be built to take care of the overflow. What worries the townspeople is that Van Rooyen recently revealed his secret recipe for growing hair. They feel it he passes on the town will lose its current prosperity. They are considering insuring the hair-growing barber for a million dollars.

Costume Jewelry Can Be Eloquent

A breezy, light look in costume jewelry is achieved in the open-work design called "contour." The design is elegantly expressed in a flower clip-pile of baguette and brilliant-cut diamonds. Left, contour jewelry permits the gown to show through, giving subtle background to the sparkling diamonds. Left, feministic fashioned from marquis diamonds create the ear-clip. A marquis diamond engagement ring completes the ensemble. Right, three-winged ear-clip, a handsome clip of round platinum ribbons swirled through a circle of round diamonds, a bracelet of flexible links, and an emerald-cut diamond is a second combination in costume jewelry for elegance.

Decoratively SPEAKING

(By Francis James)

Dear Miss James:
We are going to redecorate our living and dining rooms which are separated by a wide arch. The two rooms together measure only 15 feet, so we want to get a scheme that will give an illusion of size.

In the living room we have, at present, a chesterfield, one coffee table and a wing chair, a chest of drawers and a dining table. In the dining room we have a drop leaf table, four chairs and a buffet.

We have a grey-green broadloom carpet on the living room floor. In adjoining rooms this, must you have matching carpets? Or

Woman Proves Rhubarb Pie Is Good Bear Bait
DAWSON CREEK, B.C.—Take it from Mrs. Joe Dill of this northern community: rhubarb pie is the best bear bait.

Three hours ago she was in her cabin with freshly baked rhubarb pie and two bears made Mrs. Dill reach this conclusion.

Mrs. Dill's rhubarb pies—as so often happens with fruit pies—boiled over in the oven, giving off an aroma of burnt sugar that brought unexpected results.

It wasn't long before two huge grizzlies, both with noses sniffing the air, came out of the bush towards the cabin. Unarmed, Mrs. Dill used her voice to frighten off the grizzlies.

But two black bears arrived on the scene and paid no attention to her cries. For three hours they circled the cabin sniffing through the air, sniffing the walls, sniffing the return of Mr. Dill with a hunting rifle finally drove off the curious bears.

"WATCH OUT BELOW"

Another booklet in the series on "Who's Who on the Postage Stamps of America" has been issued by the Pan-American Union at Washington, and deals with stamps of Haiti. This latest booklet follows at a long interval those issued for Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba and the Dominican Republic.

The Haitian booklet, listed as number 12 in the series, gives full biographies of all the men shown on the stamps of that republic in the West Indies. A number of whom were not native Haitians. It also illustrates each of the stamps bearing these portraits.

The biographical data on the native Haitians is a resume of the country's history and its battle for independence from Spanish and French colonial administrations. How the country won its independence is told in the historical sketch of Toussaint, born a slave, who became governor-general of the island; Jean Jacques Dessalines, who was also born a slave, declared himself Emperor Jacques I; and Alexandre Pétion, a free-born mulatto, who with Toussaint and Dessalines fought for the independence of Haiti and became its second president.

Other biographies deal with statesmen and presidents of the small republic, and non-native Haitians. Among these were the famous father and son authors, Alexandre Dumas, the other and grandfather, who was born in Haiti and took his mother's name. Pierre Couberlin, who revived the modern Olympic games and was a native of France, was featured on a 1940 Haitian stamp and his full biography is given. Franklin Roosevelt and George Washington are also featured on Haitian stamps and included in the biographical data.

New issues of about 90 stamps have been issued by various Communist governments in China, according to the New York Times.

Millions In Stocks Appear To Be Forgotten

(By The Canadian Press)

NEW YORK.—Haul out those stock certificates you chucked into the attic trunk years ago—you may be in for a bonanza. A firm which traces missing stockholders estimates there are 127,000 Canadians who own \$87,000,000 in stocks which firms have lost track. Many have forgotten about the shares or thought them worthless.

Traders Company of America base their estimate on a survey made two years ago. Already they report they have found 46,000 missing stockholders for 125 American clients—success in 85 per cent of their cases.

They now are invading the Canadian market. Four large Dominion corporations engaged Traders to find their missing shareholders. They include Power and Paper Limited, National Hosiery Mills Limited, British Columbia Power and Light, and Montreal Trust Company.

The search for lost partners in the four Canadian firms involves about 2,000 missing shareholders. Traders say most of the shareholders will still live in Canada, although some have been traced to the United States and Britain and Europe.

Traders say another problem is holders of "obsolete or dormant stocks and bonds." A drive to find an established company's missing stockholders would not directly help these people for they hold stocks which have succeeded monetarily in the controlling of the fight of migratory ducks.

He hinted that the experiments may lead to one of the greatest discoveries of the century—radio control of living things.

Scott, son of the late Captain Scott who died in the Antarctic in 1912, is a noted bird watcher and artist. He described experiments by Dr. Albert Hochbaum at the Delta waterfowl station in Manitoba.

THEY KILLED THE SAILOR MORGAN... SHE SHALL BE AVENGED, OUR FRIENDS, THE BUCCANERS, SHALL BE AVENGED, THE SPANISH TORTURERS SHALL PAY I SWEAR IT!

NOW LET'S GET AWAY FROM THIS TOMB! LUCKY THE SPANARDS DIDN'T DISCOVER OUR GIG. A SEAL COURSE BUT YOU'RE WOUNDED...

THE BETTER I KNOW MORGAN, THE MORE I THINK HE HAD THE MAKINGS OF A GREAT MAN. I'LL STICK WITH HIM!

NOW WHERE TO?... WHY DON'T WE SEEK OUT THE HEADQUARTERS OF THE BUCCANERS, THE BRETHREN OF THE COAST...

THEIR ISLAND IS CALLED TORTUGA. MEANING IT LIES SOUTHEAST... YET WE'LL HAVE TO STEER EASTWARD COURSE TO CATCH THE TRADE WINDS... A FALLOUT JOURNEY WITHOUT CHART OR COMPASS...

AND WHAT A FEAT OF SEAMANSHIP!... 500 MILES IN A SICKLEWILL BUFFETED BY THE CHORDY CURRENTS AND SUFFLED TOWN OF THE DECEASED!

TO BE CONTINUED...

The ore was believed concentrated in a compact area ranging from two to 10 feet wide and 260 feet long.

Production by Western provinces and Ontario with 1948 outputs in brackets was: Ontario 10,655,000 (15,736,000); Manitoba 4,800,000 (6,525,000); Saskatchewan 5,200,000 (6,492,000); Alberta 6,050,000 (10,254,000); British Columbia 905,000 (918,000).

Compared with last year, prices were lower for grains, dairy products and potatoes. Poultry and eggs were slightly higher, and livestock was unchanged.

BY JANE DALE

They are tearing down the old barn today
Which has stood for years on a great acre of the way.
Its roof is caving in and its doors are all ajar.
The horses it once held have long since gone afar.
The loft, with weary rafters is bleak and bare;
The hay that once lay there has long been played there.
The mangers broken down and crumpled
Once held choice fodder for hungry horse or cow,
The oat bins are merely runs for mice and rats,
The corn bins are empty, for the birds have eaten
The windows which once revealed the sun and light
Are but blank holes peering out into the night.
Yet that old barn standing forlorn and gray
Was a vital part of life in the olden day.
Or picturesque wheel in the sunset ray,
Or pictureque wheel in the sunset ray,
Festooned each rotting board, row on row,
They are tearing down the old barn, I see,
Which has been for years a landmark to me.
But I shall never see it again, for there
Which by and by will seem to be as false

LETHBRIDGE.—Catell Food Products recently opened its new \$250,000 plant at Lethbridge with Hon. James A. MacKinnon of Ottawa and Edmonton officiating at the ceremonies. The new macaroni products factory will provide a market for durum wheat sown in Southern Alberta and supply Catell's customers on the prairie and Pacific coast. The firm has closed its Vancouver plant.

OTTAWA—Canada's storage warehouses are filled with 30 times more butter than margarine.

Bureau of statistics figures show that creamery butter stocks at Oct. 1 amounted to 72,222,000 pounds. Margarine holdings totalled 2,358,000.

Most of the butter is being held by the government as a price-support measure. It probably will be sold during the winter months when

As in other years, representatives of Dominion and Provincial Departments of Agriculture, and representatives of organized agriculture will get together for a three days' discussion of what next year is likely to hold for agriculture.

CALGARY.—Alberta's 1949 wheat crop was estimated at 96,000,000 bushels, or an average yield of 12.7 bushels per acre.

The Alberta Wheat Pool said 73 per cent. of the output would grade number one, two or three northern and 27 per cent. would be Garnet and other grades.

Oats production was estimated at 56,000,000 bushels; barley production at 38,700,000 bushels; rye at 2,650,000 bushels and flax, 315,000 bushels.

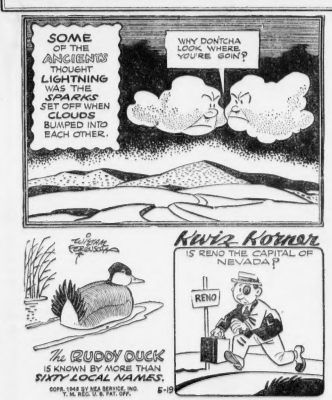

A Pennsylvania flying school has offered free flying instruction to any one over 60 years of age. 2835

The primary concern of the Canadian Mothercraft Society is the mothers and babies of Canada and the world. For this purpose they must have registered nurses to take the postgraduate course of four months at the Mothercraft Hospital, Clarendon Avenue, Toronto. The Society offers tuition, board and lodging, and a living allowance to any Ref. N. who is interested and will be

come a staff or district nurse. Closely allied to this need however is a better understanding of the alliance between positive health and the earth's soil.

LITTLE ITEMS OF LOCAL INTEREST

The Rt. Rev. H.R. Ragg, M.A., D.D. Bishop of Calgary, will preach at the service at Christ Church, Carbon on Sunday, October 30, at 3:00 p.m.

The Carbon Masonic Lodge Ladies' Night has been indefinitely postponed.

Mr. and Mrs. Fields of Nantock, Ont. spent a short time visiting Monday with Mrs. W.R. Van Loon. Mr. Fields is a nephew of Mr. Van Loon and only learned of the latter's death on his arrival in Carbon.

Dale Poon spent the weekend at his home in Carbon.

Town Constable Alex Sobyski will be patrolling the village on Halloween night to see that no damage is done to property. Take heed, boys and girls, and be on your best behavior.

Eighteen members of Carbon Lodge No. 107 motored to Calgary last Thursday to pay an official visit to Zetland Lodge No. 83.

Born to Mr. and Mrs. John Reid in the Three Hills hospital on Saturday, October 22, a girl.

Bobbie Markman is driving a new Chevrolet car.

Mr. and Mrs. Charlie Cave left Monday by bus to spend the winter months at Vancouver, B.C.

Asa Willard Vanover, an old timer of the Carbon district died Saturday morning, October 22.

Reuben and Bill Ohlhauser were Calgary visitors Tuesday and Wednesday of this week.

Mr. and Mrs. R.J. Shaw Sr. returned Monday to Edmonton after spending several days at the home of their son and daughter-in-law, Mr. and Mrs. R.J. Shaw Jr.

The Carbon United Church Ladies Aid will sponsor a Bazaar and Supper on Tuesday, November 8, in the Scout Hall. The annual shower for the bazaar will be held at the home of Mrs. L. Poon on Thursday afternoon, November 3.

Royal Hay returned Friday from the Drumheller hospital, where he had been confined for several days following an accident to his hand received when operating a hammer mill. One finger was badly crushed but may respond to treatment.

Mr. and Mrs. Ted Sherring were Calgary visitors for several days last week.

Mr. and Mrs. Cliff Poole and family spent Friday and Saturday visiting friends in Calgary.

Don't forget the Ten and Bazaar sponsored by the Gamble Ladies' Aid in the Carbon Hall Saturday, November 5, from 3 to 6 p.m.

CARBON BAPTIST CHURCH

The annual Tri-Union Song Festival of the Baptist churches of Southern Alberta will be held in the Carbon Baptist Church on Sunday, October 30. All our friends and neighbors are cordially invited to this festival. Six church choirs will render two numbers in music and singing and a mass choir of all six will sing under the direction of Mr. Wraske of Camrose.

Sunday School at 10 a.m. Greetings and special speakers will come from the visiting School superintendents.

Morning worship at 11 a.m. Rev. Henry Schat, pastor of Bridgehead Baptist Church, Calgary, will bring the message.

Song Festival at 2 p.m. Rev. J. G. Rott will bring a short message on "O sing unto the Lord a new song."

Lunch will be served in the social hall at 12:30.

The National Research Council has found that if a hog is tired before it is slaughtered its bacon won't keep as well as had it been rested.

IN MEMORIAM

In loving memory of a dear Wife and Mother, Louisa Ohlhauser, who passed away October 31, 1948. Sleep on good mother, it has been a long year. Since you left our hearts filled with sadness and tears; Yours was a heart that was lithe-some and gay, Scattering sunshine all along the way.

You know how we loved you, and yes, love you yet, Though God took you from us—we cannot forget.

Ever remembered by Husband and Family

The Domestic Animals Act (Municipalities)

SALE AND REDEMPTION OF IMPOUNDED ANIMALS (Sec 48)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that one bay gelding, one grey gelding and two brown geldings (no visible brands) were impounded in the pound kept by Richard Garrett, Carbon, Alberta, located on the S.E. ¼ of Section 5-30-22-4 on Saturday, the 10th day of September, A.D. 1949, and that the said animals were sold on the 22nd day of September 1949. No sale (no bids made).

For information apply to the undersigned.

MORE WESTERN OIL

An increase by 1951 of about 22,000 barrels a day or about one third in the capacity of oil refineries in the three prairie provinces is forecast by Dr. O.B. Hopkins, president of the Interprovincial Pipe Line Company. He indicates that projected 1951 capacities there will total 88,950 barrels a day as compared with a present daily total of about 66,590 barrels.

Most of us have an urge to get rich...or at least to be comfortably off. But few of us will get there without the habit of saving.

Canada Savings Bonds, the 4th Series of which is now on sale, are an easy, sensible way to save. They can be purchased through any investment dealer or bank, or bought by easy, regular deductions from

your pay on your Company's Payroll Savings Plan.

You will be surprised how quickly your savings mount up. And if should you need the money at any time, Canada Savings Bonds can always be cashed at their full face value at any bank...and they pay you interest as long as you hold them.

PREDATORS OUTLAWS AT LARGE

WOLVES

The Killers of Livestock and Game

Wolf predatorism in the Northern and Western reaches of Alberta has assumed desperate proportions, according to Mr. I.P. Callison, who recently made a survey of the situation. Mr. Callison claims that some of the finest game ranges in Alberta have been over-run by these many killers, resulting in rapid extermination of our game herds. As the game becomes scarce, the wolves are beginning to spill over the ranges into the foothills and prairies to prey on valuable domestic stock. Evidence that wolves are on the increase is that the government paid bounty on 8000 kills in the year ending March 31, 1949.

Farmers and townspeople alike are urged to be on the lookout for these outlaws and take vigorous action to track down and destroy them if they make an appearance in the area.
